

“Inner Door” Spare Part Kit for all AICHELIN Plants

Everything you need to maintain your intermediate door

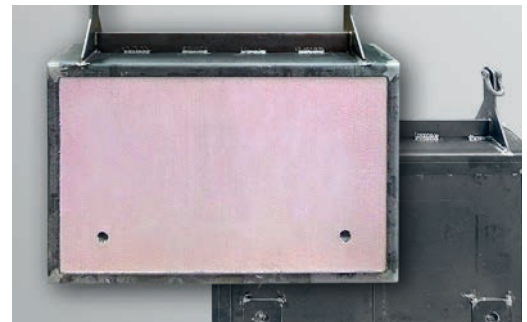

SPARE AND WEAR PARTS
Spare part kits

SAFE AND SIMPLIFIED SPARE PARTS SUPPLY FOR YOUR MAINTENANCE NEEDS

- Each plant is measured by its availability for production.
- Production determines the right to exist and the sustainable value creation of the company.
- Downtime must be kept to the lowest possible minimum.
- Spare parts must be able to be replaced as quickly and easily as possible.
- Stocking the correct spare parts greatly reduces plant downtime, thus ensuring efficient production.
- Part of the solution: **AICHELIN Spare part kits.**

THE AICHELIN SOLUTION: INDIVIDUALLY CUSTOMIZED INTERMEDIATE DOOR KITS

- **Spare part kit:** all spare parts for a relevant component, perfectly coordinated in a single kit.
- **“Inner Door” Spare part kit:** insulated door frame, round steel chains, door suspension brackets, bolts for door suspension, locking washer for bolts and shackles. These individual parts are prefabricated and delivered as part of the finished component.

Prefabricated intermediate door in AICHELIN quality

YOUR ADVANTAGES

- Procurement and stocking of individual parts are unnecessary
- All required parts are available together on-site
- Fast and seamless exchange of spare parts
- Save time in internal workflow, shorter installation times and downtime
- Simple ordering with a unique article order number

YOUR RELIABLE PARTNER
