

Spare Parts Service for Third-Party Plants

A service of the AICHELIN Group

SPARE AND WEAR PARTS

Process reliability + downtime optimization

QUALITY MEANS BEING IN THE RIGHT PLACE AT THE RIGHT TIME

Not every supplier is able to reliably deliver the right spare parts. **But we are**, and we can even **deliver spare parts for third-party plants**.

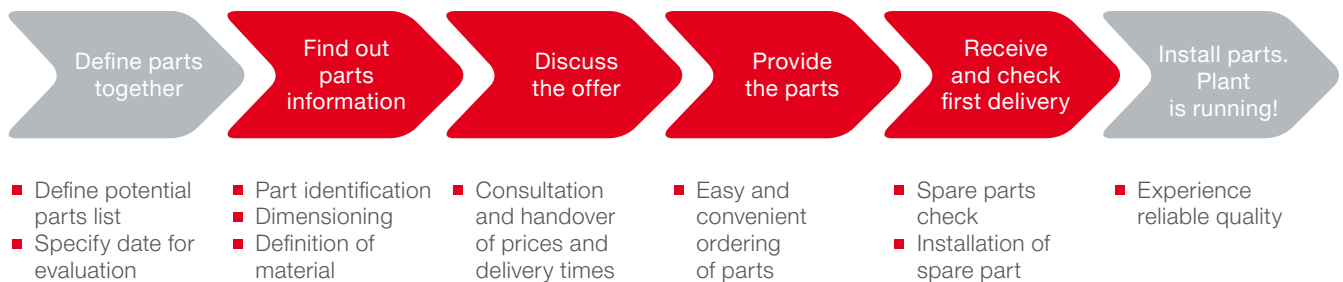

Unreliable supply chains are not only nerve-wracking, they also pose a significant risk for your production. Long delivery times and way too expensive spare parts also put a dent in your **available maintenance budget**.

These various aspects and interfaces entail a high logistical risk, considerable effort on behalf of the maintenance engineer, and a high **production risk** for your company.

THE AICHELIN SOLUTION: EASY PROCESS WITH AICHELIN SERVICE

We can offer you **everything from a single source** in order to mitigate these risks and efforts – in the usual **AICHELIN quality**.

This service not only **saves you resources**, but above all it can also be **planned reliably**. We can support you with the following.

YOUR ADVANTAGES

- Predictable scheduling and costs
- Everything from a single source
- Fair prices and convenient handling as usual
- The spare part is ready for re-installation after testing
- Parts are available in AICHELIN quality
- Combined with an annual maintenance carried out by AICHELIN, your plant will run reliably again

YOUR RELIABLE PARTNER

- Maximum flexibility when it comes to customer requirements (deadline, scope, and extras)
- Play it safe with the market leader in heat treatment
- Many years of experience to simplify your procurement processes and to support you in improving or adapting your plant
